

# JOURNAL OF POWER ELECTRONICS

A PUBLICATION OF THE KOREAN INSTITUTE OF POWER ELECTRONICS

## ***Low Power Converters***

• Double-Input DC-DC Converter for Applications with Wide-Input-Voltage-Ranges .....	Renjun Hu, Jun Zeng, Junfeng Liu, and Jimming Yang	1619
• Rapid Dynamic Response Flyback AC-DC Converter Design .....	Changyuan Chang, Menglin Wu, Luyang He, and Dadi Zhao	1627
• Deadbeat Direct Active and Reactive Power Control of Three-phase PWM AC/DC Converters .....	Ali Gandomkar and Jul-Ki Seok	1634
• Flyback AC-DC Converter with Low THD Based on Primary-Side Control .....	Changyuan Chang, Luyang He, Zixuan Cao, and Dadi Zhao	1642

## ***High Power Converters***

• A Practical Algorithm for Selective Harmonic Elimination in Five-Level Converters .....	Farzad Golshan, Adib Abrishamifar, and Mohammad Arasteh	1650
• Novel Method for Circulating Current Suppression in MMCs Based on Multiple Quasi-PR Controller .....	Jian Qiu, Lijun Hang, Dongliang Liu, Shengbao Geng, Xiaonan Ma, and Zhen Li	1659
• Repetitive Control with Specific Harmonic Gain Compensation for Cascaded Inverters under Rectifier Loads .....	Zheng-Kai Lv, Li Sun, Jian-Dong Duan, Bing Tian, and HuiLing Qin	1670
• Modeling, Analysis, and Enhanced Control of Modular Multilevel Converters with Asymmetric Arm Impedance for HVDC Applications .....	Peng Dong, Jing Lyu, and Xu Cai	1683
• Two Low-Loss Large Current Rectifiers Based on Low KVA Rating Wye-Connected Autotransformers .....	Fangang Meng, Zhongcheng Man, Quanhui Li, and Lei Gao	1697

## ***Adjustable Speed Drives***

• A Robust Dynamic Decoupling Control Scheme for PMSM Current Loops Based on Improved Sliding Mode Observer .....	Hanlin Shen, Xin Luo, Guilin Liang, and Anwen Shen	1708
• Novel Soft Starting Algorithm of Single Phase Induction Motors by Using PWM Inverter .....	Hae-Jin Kim, Seon-Hwan Hwang, and Jang-Mok Kim	1720
• Comparative Study of Minimum Ripple Switching Loss PWM Hybrid Sequences for Two-level VSI Drives .....	G. Vivek, Jayanta Biswas, Meenu D. Nair, and Mukti Barai	1729

## ***Analysis, Modeling and Control***

• Accurate Power Sharing in Proportion for Parallel Connected Inverters by Reconstructing Inverter Output Impedance .....	Shengli Huang and Jianguo Luo	1751
• Control Bandwidth Extension Method Based on Phase Margin Compensation for Inverters with Low Carrier Ratio .....	Qikang Wei, Bangyin Liu, and Shanxu Duan	1760
• Model Predictive Control for Tram Charging and Its Semi-Physical Experimental Platform Design .....	Chujia Guo, Aimin Zhang, and Hang Zhang	1771

(Contents Continued on Next Page)

THE KOREAN INSTITUTE OF POWER ELECTRONICS

## ***Analysis, Modeling and Control***

---

• High-Pass-Filter-Based Virtual Impedance Control for <i>LCL</i> -filtered Inverters Under Weak Grid .....	Jiangfeng Wang, Yan Xing, Li Zhang, Haibing Hu, Tianyu Yang, and Daorong Lu	1780
• Deadbeat and Hierarchical Predictive Control with Space-Vector Modulation for Three-Phase Five-Level Nested Neutral Point Piloted Converters .....	Junjie Li, Xiangyu Chang, Dirui Yang, Yunlong Liu, and Jianguo Jiang	1791

## ***Renewable Energy***

---

• Humpback Whale Assisted Hybrid Maximum Power Point Tracking Algorithm for Partially Shaded Solar Photovoltaic Systems .....	Manoharan Premkumar and Rameshkumar Sumithra	1805
---	--	------

## ***Power Quality and Utility Applications***

---

• Three-phase Three-level Boost-type Front-end PFC Rectifier for Improving Power Quality at Input AC Mains of Telecom Loads .....	Saravana Prakash P., R. Kalpana, and Bhim Singh	1819
• Modelling and Performance Analysis of UPQC with Digital Kalman Control Algorithm under Unbalanced Distorted Source Voltage conditions .....	Venkatesh Kumar and Rajeswari Ramachandran	1830
• Stability Control of Energy Storage Voltage Source Inverters in Isolated Power Systems .....	Jian Hu and Lijun Fu	1844
• Multi-Function Distributed Generation with Active Power Filter and Reactive Power Compensator .....	Shengli Huang and Jianguo Luo	1855
• Compensation of Neutral Point Deviation under Generalized 3-Phase Imbalance in 3-level NPC Converters .....	Kyungsub Jung and Yongsug Suh	1866
• Complex Vector Modeling and Series Decoupling Current Control Strategy of High-Power L/LCL Type Grid-Connected Converter Under Low Switching Frequency .....	Yingjie Wang, Lanyi Jiao, Bo Yang, Wenchao Wang, and Haiyuan Liu	1879
• Harmonic Current Compensation Using Active Power Filter Based on Model Predictive Control Technology .....	Misbau Adam, Yuepeng Chen, and Xiangtian Deng	1889

## ***Devices and Components***

---

• Improved Circuit Model for Simulating IGBT Switching Transients in VSCs .....	Naushath Mohamed Haleem, Athula D. Rajapakse, and Aniruddha M. Gole	1901
• Large Signal Determination of Non-Linear Output Capacitance of Gallium-Nitride Field Effect Transistors from Switch-Off Voltage Transients – A Numerical Method .....	David Pentz and Andrea Joannou	1912

## ***Other Applications***

---

• Step-Up Asymmetrical Nine Phase Delta-Connected Transformer for HVDC Transmission .....	Arafet Ben Ammar and Faouzi Ben Ammar	1920
---	---------------------------------------	------

**About the journal:** The official title of the journal is ***Journal of Power Electronics*** (pISSN 1598-2092; eISSN 2093-4718), and the ISO abbreviation of the journal title is ‘*J. Power Electron.*’ The first issue of **JPE** was in April 2001. **JPE** is published bimonthly, appearing on the 20<sup>th</sup> day of January, March, May, July, September, November each year. Hard copies of JPE are distributed to 51 associations related with the field of power electronics.

**Aims and Scope:** Its scope includes all topics in the field of Power Electronics. Included are techniques for high power converters, power quality and utility applications, renewable energy, low power converters, control in power electronics, motor drives, electric machines, analysis, simulation and control, power devices and components, sensors, integration and packaging, education, and other applications.

**Full Text Availability:** Full text is freely available at the following URL – <http://www.jpels.org>. Search articles by year, category, title, author, abstract, and keyword.

**Index/Abstracted in:** Science Citation Index Expanded (SCI E), Journal Citation Reports/Science Edition, Korea Citation Index, Scopus

**Fund Support:** This journal was supported by the Korean Federation of Science and Technology Societies Grant funded by the Korean Government (Ministry of Education).

**Hard Copy Subscription:** The subscription period and rate are renewed on a yearly basis. If you are in the middle of a year, you can choose the starting point either from this year or from next year. Annual Hard Copy Subscription Rates (USD) – Individual: \$ 100.00; Business/Library: \$ 300.00. For more information on subscriptions, please visit the JPE website: <http://www.jpels.org>

**Publisher:** The Korean Institute of Power Electronics (KIPE)

## Contact Information

The Korean Institute of Power Electronics  
Rm. #1103, The Korean Science & Technology Bldg. (New Bldg.), 22, Teheran-ro 7gil, Gangnam-gu, Seoul 06130, Republic of Korea  
Tel: +82-2-554-0184, 0185; Fax: +82-2-554-0186; E-mail: editor@kipe.or.kr; Website: <http://www.jpels.org>

© 2018. The Korean Institute of Power Electronics. All rights reserved. Responsibility for the contents rests upon the authors and not upon the KIPE.

# INSTRUCTIONS TO AUTHORS

Manuscripts submitted for the consideration should report the results of an original work. Also, survey papers from the field experts will be considered for the review.

## Details on the “original works”

Papers that have been previously published or submitted to other journals, conferences, or books in any language will not be considered for the **JPE** publication. However, the extended version of the paper presented at the conference, workshop, or symposium can be submitted to **JPE** for the consideration no later than 18 months from the presentation. After the due date, the submission will be invalid. In order to qualify for the review, the extended version of the paper should include significant improvements. The title and abstract of the paper should be different and at least 30% of the contents (introduction, main body, conclusion and references) should be modified with new ideas and improvements. If a significant overlap (e.g. higher than 30% in terms of text) between the original conference paper and the submitted manuscript is found through the plagiarism detection software, the manuscript will be returned or rejected immediately. Authors should clearly indicate at which conference, workshop or symposium the manuscript has been presented for the initial submission. Also, the original conference paper should be uploaded at the initial submission. The conference paper should be cited in the manuscript and be added in the reference list. Also in cover letter, mention as to which contents in the manuscript have been improved from the original conference paper. Any violation of the rules mentioned above may cause an infringement of the copyright as well as a self-plagiarism. Every co-authors bear the full responsibility for any legal issues.

## Plagiarism Policy

All the original conference papers and dissertations should be referred in manuscript. All the manuscripts for review should meet following requirements. Otherwise, the editorial committee refuses to review the manuscript or rejects to publish it.

1. Identify the original text body and form a reference mark. Even if a reference is made, the contents of the comparison/evaluation should be added.
2. The drawing, table or formula should be drawn or expanded as freshly as possible. If the original ones are imported, the author should resolve the license problem and reveal the courtesy copy
  - A. Imported ones from the graduation thesis must be licensed by university publisher and/or the copyright holder.
  - B. In case of articles, they must be licensed by the publisher.
3. Do not copy the original text body as it is.
4. Add new content as much as possible.

## Submission Guidelines for the **JPE**

These guidelines are specified by the **JPE** Editor-in-Chief. All authors are responsible for understanding these guidelines before submitting manuscripts to the **JPE**.

## Guidelines for Submitting a Manuscript for Review

Authors must submit manuscripts electronically to the **JPE** on-line review system at <http://manuscript.jpels.org>. All manuscripts must be in an electronic format (only ‘.pdf’ files) and less than 10Mb. Please note that first-time users of the **JPE** system have to create an account and follow the submission instructions. Names of the authors and their affiliations must remain anonymous in the submitted manuscripts to make the evaluation process as fair as possible. However, when submitting a manuscript, the corresponding author’s information must be entered into the submission form on the **JPE** author’s page at the **JPE** website. It is the author’s responsibility to ensure that the submitted files are fully viewable and in the intended format. Before making a submission, please confirm the style and format of your manuscript accordingly.

## Style of a Manuscript for Review

- Size of manuscript: 21cm x 27.8cm
- Formatted double columns with a single spaced 9.5pt fonts.
- Include all figures, tables and captions in the text and confirm their size and legibility.
- If a table or figure is too large for a single column, make it span the width of the entire page.
- Include the manuscript title, keywords and an abstract of not more

than 200 words on the first page.

- Do not include articles (a, an, the) and some adjectives such as new, novel, enhanced, improved in the title. They are allowed to be used only in exceptional cases.
- Capitalize the first letter of each word in the title except prepositions, articles and conjunctions.
- Indicate reference numbers in square brackets (e.g. [1], [2], and [3]) and give the reference details at the end of the paper.
- Please do not include authors’ names, footnotes, photos, acknowledgements, biographies or any other information which could identify authors in the manuscript.

For a more detailed formatting guideline, you can download a template file for review at [http://jpels.org/submission/info\\_authors.asp](http://jpels.org/submission/info_authors.asp).

## Forms of Publication

**JPE** accepts original papers of research articles, invited papers.

- Original Paper: Original research articles on the wide areas of power electronics and its applications.
- Invited Paper: Articles which are invited to submit from the Editorial Committee of **JPE**.

## SI Unit

Please refer to the ‘SI Unit’ list in **JPE** website: <http://www.jpels.org>

## Peer Review

The KIPE employs a web-based manuscript submission portal for the peer-review. All manuscripts are treated as confidential. Each manuscript is peer-reviewed by at least two anonymous reviewers who are specialized in the field of power electronics. **JPE** reviewers are selected by the **JPE** Editorial Board depending on their career and contributions in the field of power electronics.

## Code of Ethics for Research

Prior to submitting your manuscript, please ensure that you carefully read the Code of Ethics for Research of the Korean Institute of Power Electronics. The Code of Ethics for Research is available from [http://jpels.org/submission/info\\_authors.asp](http://jpels.org/submission/info_authors.asp)

## Guidelines for Submitting a Final Manuscript for Publication

Once a manuscript has been accepted for the publication, the authors will be notified by the **JPE** Editorial board. At that point, a special format will be required for the publication. Your final manuscript for the publication must contain author biographies and photos and be saved in MS-Word (‘.doc’ file) which is less than 10Mb. Before submitting your final manuscript, please check the template file at [http://jpels.org/submission/info\\_authors.asp](http://jpels.org/submission/info_authors.asp) and format your manuscript accordingly. Submit your final manuscript to the **JPE** on-line review system with your author’s ID and also send it to the **JPE** Editor by e-mail at [editor@kipe.or.kr](mailto:editor@kipe.or.kr). A signed copyright agreement form is also required before publication.

## Copyright Policy

It is KIPE policy to obtain the copyright for all KIPE published technical contributions. To comply with this policy, authors are required to sign a KIPE copyright agreement form before publication. This form is provided upon approval of a manuscript. Authors should submit a signed copy of the copyright form along with their final manuscript. The KIPE copyright agreement form can be downloaded at [http://jpels.org/submission/copyright%20agreement/Copyright\\_Agreement.doc](http://jpels.org/submission/copyright%20agreement/Copyright_Agreement.doc) and submitted to the **JPE** on-line review system at <http://manuscript.jpels.org>.

## Page Charges

After the final manuscript has been submitted, the **JPE** editor will estimate the length of the paper. The authors will be notified in advance of page charges. Page charges will be billed at \$30 per page. Authors must commit to paying page charges before the publication.

## Table of Contents

### Journal of Power Electronics Vol. 18, No. 6 November 2018

#### ***Low Power Converters***

---

Double-Input DC-DC Converter for Applications with Wide-Input-Voltage-Ranges	Renjun Hu, Jun Zeng, Junfeng Liu, and Jinming Yang	1619
Rapid Dynamic Response Flyback AC-DC Converter Design	Changyuan Chang, Menglin Wu, Luyang He, and Dadi Zhao	1627
Deadbeat Direct Active and Reactive Power Control of Three-phase PWM AC/DC Converters	Ali Gandomkar and Jul-Ki Seok	1634
Flyback AC-DC Converter with Low THD Based on Primary-Side Control	Changyuan Chang, Luyang He, Zixuan Cao, and Dadi Zhao	1642

#### ***High Power Converters***

---

A Practical Algorithm for Selective Harmonic Elimination in Five-Level Converters	Farzad Golshan, Adib Abrishamifar, and Mohammad Arasteh	1650
Novel Method for Circulating Current Suppression in MMCs Based on Multiple Quasi-PR Controller	Jian Qiu, Lijun Hang, Dongliang Liu, Shengbao Geng, Xiaonan Ma, and Zhen Li	1659
Repetitive Control with Specific Harmonic Gain Compensation for Cascaded Inverters under Rectifier Loads	Zheng-Kai Lv, Li Sun, Jian-Dong Duan, Bing Tian, and HuiLing Qin	1670
Modeling, Analysis, and Enhanced Control of Modular Multilevel Converters with Asymmetric Arm Impedance for HVDC Applications	Peng Dong, Jing Lyu, and Xu Cai	1683
Two Low-Loss Large Current Rectifiers Based on Low KVA Rating Wye-Connected Autotransformers	Fangang Meng, Zhongcheng Man, Quanhui Li, and Lei Gao	1697

#### ***Adjustable Speed Drives***

---

A Robust Dynamic Decoupling Control Scheme for PMSM Current Loops Based on Improved Sliding Mode Observer	Hanlin Shen, Xin Luo, Guilin Liang, and Anwen Shen	1708
Novel Soft Starting Algorithm of Single Phase Induction Motors by Using PWM Inverter	Hae-Jin Kim, Seon-Hwan Hwang, and Jang-Mok Kim	1720
Comparative Study of Minimum Ripple Switching Loss PWM Hybrid Sequences for Two-level VSI Drives	G. Vivek, Jayanta Biswas, Meenu D. Nair, and Mukti Barai	1729

#### ***Analysis, Modeling and Control***

---

Accurate Power Sharing in Proportion for Parallel Connected Inverters by Reconstructing Inverter Output Impedance	Shengli Huang and Jianguo Luo	1751
Control Bandwidth Extension Method Based on Phase Margin Compensation for Inverters with Low Carrier Ratio	Qikang Wei, Bangyin Liu, and Shanxu Duan	1760

Model Predictive Control for Tram Charging and its Semi-Physical Experimental Platform Design .....	Chujia Guo, Aimin Zhang, and Hang Zhang	1771
High-Pass-Filter-Based Virtual Impedance Control for <i>LCL</i> -filtered Inverters Under Weak Grid .....	Jiangfeng Wang, Yan Xing, Li Zhang, Haibing Hu, Tianyu Yang, and Daorong Lu	1780
Deadbeat and Hierarchical Predictive Control with Space-Vector Modulation for Three-Phase Five-Level Nested Neutral Point Piloted Converters .....	Junjie Li, Xiangyu Chang, Dirui Yang, Yunlong Liu, and Jianguo Jiang	1791

---

### ***Renewable Energy***

Humpback Whale Assisted Hybrid Maximum Power Point Tracking Algorithm for Partially Shaded Solar Photovoltaic Systems .....	Manoharan Premkumar and Rameshkumar Sumithra	1805
---	--	------

---

### ***Power Quality and Utility Applications***

Three-phase Three-level Boost-type Front-end PFC Rectifier for Improving Power Quality at Input AC Mains of Telecom Loads .....	Saravana Prakash P., R. Kalpana, and Bhim Singh	1819
Modelling and Performance Analysis of UPQC with Digital Kalman Control Algorithm under Unbalanced Distorted Source Voltage conditions .....	Venkatesh Kumar and Rajeswari Ramachandran	1830
Stability Control of Energy Storage Voltage Source Inverters in Isolated Power Systems .....	Jian Hu and Lijun Fu	1844
Multi-Function Distributed Generation with Active Power Filter and Reactive Power Compensator .....	Shengli Huang and Jianguo Luo	1855
Compensation of Neutral Point Deviation under Generalized 3-Phase Imbalance in 3-level NPC Converters .....	Kyungsub Jung and Yongsug Suh	1866
Complex Vector Modeling and Series Decoupling Current Control Strategy of High-Power L/LCL Type Grid-Connected Converter Under Low Switching Frequency .....	Yingjie Wang, Lanyi Jiao, Bo Yang, Wencho Wang, and Haiyuan Liu	1879
Harmonic Current Compensation Using Active Power Filter Based on Model Predictive Control Technology .....	Misbawu Adam, Yuepeng Chen, and Xiangtian Deng	1889

---

### ***Devices and Components***

Improved Circuit Model for Simulating IGBT Switching Transients in VSCs .....	Naushath Mohamed Haleem, Athula D. Rajapakse, and Aniruddha M. Gole	1901
Large Signal Determination of Non-Linear Output Capacitance of Gallium-Nitride Field Effect Transistors from Switch-Off Voltage Transients – A Numerical Method .....	David Pentz and Andrea Joannou	1912

---

### ***Other Applications***

Step-Up Asymmetrical Nine Phase Delta-Connected Transformer for HVDC Transmission .....	Arafet Ben Ammar and Faouzi Ben Ammar	1920
---	---------------------------------------	------
